

How Many?

1 Look at the picture below.

How many planets (🪐) are there?

How many stars (★) are there?

Circle the correct word below.

There are **more** / **fewer** stars than planets.

2 Who has the **most** balls? Tick the box.

Shaun

Matthew

Isha

3 There are **equal** numbers of penguins and fish.

Finish the drawing.

Challenge 2: Answer these problems in your purple book.

1. Count the different objects in the picture below.

trees

bicycle
wheels

dustbin

Choose three different objects from the picture. Count them.

What do you notice about the number of different objects you have counted?

2. Anna has a bag of sweets. Her bag rips and some sweets fall out. There are less sweets in her bag than she has dropped.

How many sweets could be in her bag?

There are more stripy sweets than spotty ones. How many stripy and spotty sweets could be left in her bag?
