

Good morning/ afternoon Green Class,

I hope you all had a fantastic Bank Holiday weekend. I would love to see/ read about what you have been up to so feel free to contact me in the usual way:

green@margaretroper.croydon.sch.uk

This week's English tasks are a little different. I am setting you a mini project which I hope you will enjoy. Therefore, rather than sending me your English work on a daily/ every few days basis, I would like you to wait until your project is complete before sending it to me. This is likely to be next Friday 15th May or over the weekend. However, there is absolutely no rush as I want you to put as much effort into this project as you can. I am hoping it is something you would like to keep afterwards.

So... what is your project going to be about?

Your family!

We are going to be exploring the history of YOUR family! This is also known as **genealogy**.

Let us get started with today's task:

- 1) Look at the PowerPoint presentation.
- 2) Work through each page. Please note: on slide 6 you do not need to write anything down, just answer the questions out loud.
- 3) Slide 7- you may wish to interview an adult in your family e.g. parent. Or if you are able to, maybe you could interview another relative and ask them. Please remember to ask an adult in your home to help you first.
- 4) When you are writing your questions, you may wish to handwrite these or type them up. It is entirely up to you.

Enjoy!
