

Maths: Count back

Activity 1: Use the number line to help you answer these number sentences. We are doing takeaway so that means we need to go backwards.

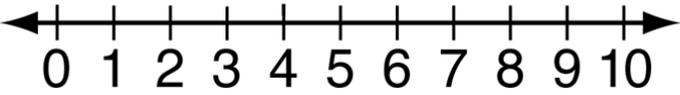

Remember you always start on the first number and count back the second number to get your answer.

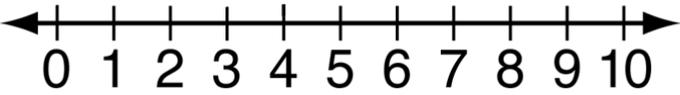

$$7 - 3 = \underline{\quad}$$

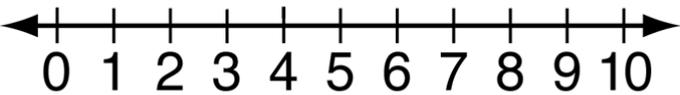

$$10 - 2 = \underline{\quad}$$

$$9 - 5 = \underline{\quad}$$

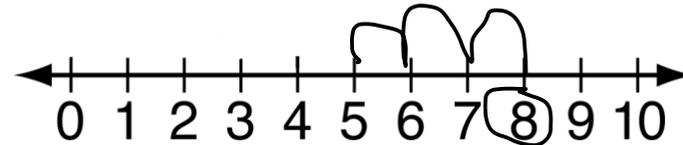

$$6 - 5 = \underline{\quad}$$

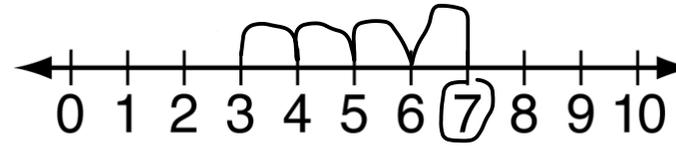

$$10 - 4 = \underline{\quad}$$

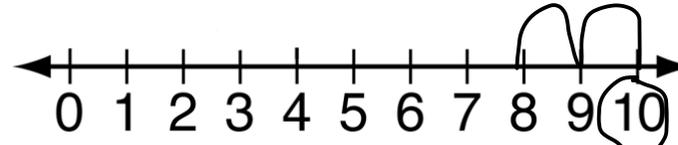

Activity 2: I have drawn the jumps on the number lines, but my tea spilt over my number sentences and washed them away. Can you work out what the number sentences should be based on the number lines.

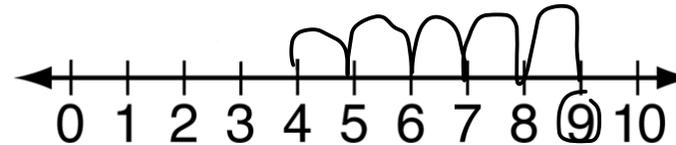

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

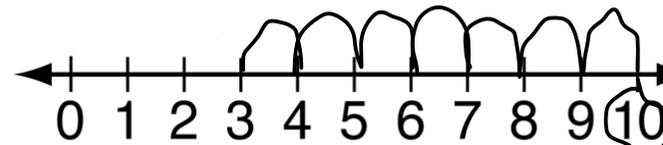

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

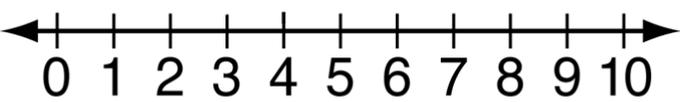

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

Maths: Count back

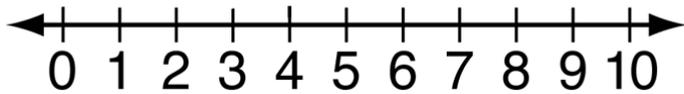

Activity 3: Work out the answers using the number line for these sentences. Show the sentences as a number sentences.

I count backwards from 9. How many jumps does it take to get to two?

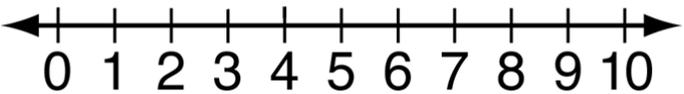

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

I count backwards from 10. How many jumps does it take to get to 6?

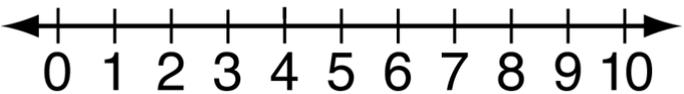

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

I count backwards from 6. How many jumps does it take to get to 2?

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

I count backwards from 7. How many jumps does it take to get to 4?

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

Activity 4: Try and place this game with someone you live with. Who will be the champion? 😊 If you don't have a dice, I have include an interactive one.

Online dice: <https://www.online-stopwatch.com/chance-games/roll-a-dice/>

Game

Race to zero!

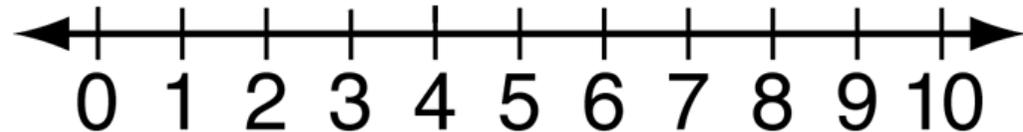

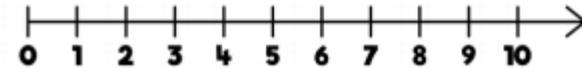

Start at 10 on a number line.

Roll a dice and subtract this amount.

The first person to land on 0 wins.

What would you like to roll? Why?

Why would you not want to roll a 1?

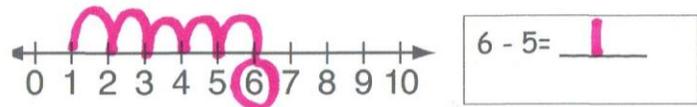

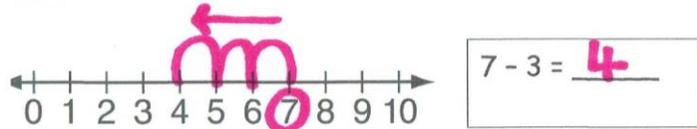

Maths: Count back

Answers:

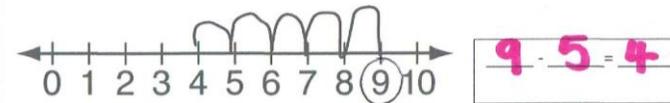

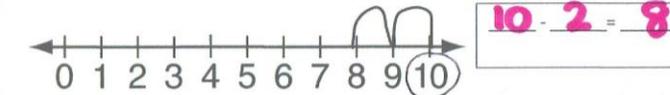

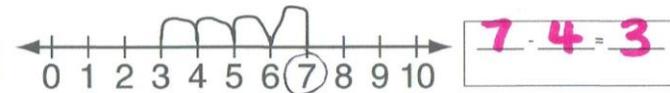

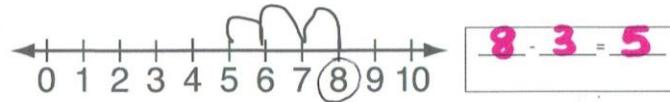

Maths: Count back

Activity 1: Use the number line to help you answer these number sentences. We are doing takeaway so that means we need to go backwards.

Remember you always start on the first number and count back the second number to get your answer.

Activity 2: I have drawn the jumps on the number lines, but my tea spilt over my number sentences and washed them away. Can you work out what the number sentences should be based on the number lines.

Activity 3: Work out the answers using the number line for these sentences. Show the sentences as a number sentences.

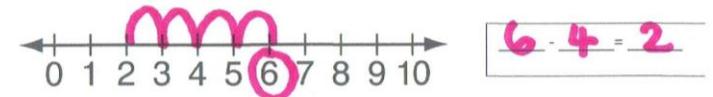

I count backwards from 9. How many jumps does it take to get to two?

I count backwards from 10. How many jumps does it take to get to 6?

I count backwards from 6. How many jumps does it take to get to 2?

I count backwards from 7. How many jumps does it take to get to 4?
