

Maths: How many left?

Activity 1: Complete the first, then and now sentences to match the pictures. I have completed an example for you.

First there were 5 frogs.
Then 1 left.
Now there are 4 left over.

First there were _____ bananas.
Then _____ were eaten.
Now there are _____ left over.

First there were _____ people on the bus.
Then _____ got off.
Now there are _____ left over.

First there were _____ buns.
Then _____ were eaten.
Now there are _____ left over.

First there were _____ apples.
Then _____ were eaten.
Now there are _____ left over.

First there were _____ aliens.
Then _____ flew off.
Now there are _____ left over.

First there were _____ bottles.
Then _____ fell off.
Now there are _____ left over.

First there were _____ cakes.
Then _____ were eaten.
Now there are _____ left over.

Maths: How many left?

Activity 2: Now you have looked at the word sentences. It is now time to write what the number sentences would be.

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

Maths: How many left?

Activity 3: Using a tens frame to help you, work out the answer to these word problems. I have completed the first one as an example for you.

Example:

1. At first there were 5 apples. Then 2 are eaten. How many are left?

$$5 - 2 = 3$$

2. At first there are 10 cars. Then 7 leave the carpark. How many are left?

3. At first there were 7 cakes in the shop. Then 2 were sold. How many are left?

4. At first there were 9 cats. Then 3 ran away. How many are left?

5. At first there were 8 mugs. Then 5 of them smashed. How many are left?

Activity 4: Remember to work systematically when choosing how many bees fly away. Show your working 😊.

How many calculations can you complete?

$$7 - \square = \square$$

Challenge: Why can you not use the numbers 8 and 9?

Maths: How many left?

Answers:

Maths: How many left?

Activity 1: Complete the first, then and now sentences to match the pictures. I have completed an example for you.

First there were 5 frogs.
Then 1 left.
Now there are 4 left over.

First there were 8 bananas.
Then 3 were eaten.
Now there are 5 left over.

First there were 10 people on the bus.
Then 2 got off.
Now there are 8 left over.

First there were 10 buns.
Then 2 were eaten.
Now there are 8 left over.

First there were 4 apples.
Then 2 were eaten.
Now there are 2 left over.

First there were 5 aliens.
Then 4 flew off.
Now there are 1 left over.

First there were 7 bottles.
Then 3 fell off.
Now there are 4 left over.

First there were 10 cakes.
Then 4 were eaten.
Now there are 6 left over.

Maths: How many left?

Activity 2: Now you have looked at the word sentences. It is now time to write what the number sentences would be.

$$5 - 1 = 4$$

$$8 - 3 = 5$$

$$10 - 2 = 8$$

$$10 - 2 = 8$$

$$4 - 2 = 2$$

$$5 - 4 = 1$$

$$7 - 3 = 4$$

$$10 - 4 = 6$$

Maths: How many left?

Activity 3: Using a tens frame to help you, work out the answer to these word problems. I have completed the first one as an example for you.

Example:

1. At first there were 5 apples. Then 2 are eaten. How many are left?

$$5 - 2 = 3$$

2. At first there are 10 cars. Then 7 leave the carpark. How many are left?

$$10 - 7 = 3$$

3. At first there were 7 cakes in the shop. Then 2 were sold. How many are left?

$$7 - 2 = 5$$

4. At first there were 9 cats. Then 3 ran away. How many are left?

$$9 - 3 = 6$$

5. At first there were 8 mugs. Then 5 of them smashed. How many are left?

$$8 - 5 = 3$$

How many calculations can you complete?

$$\begin{aligned} 7 - 0 &= 7 \\ 7 - 1 &= 6 \\ 7 - 2 &= 5 \\ 7 - 3 &= 4 \\ 7 - 4 &= 3 \\ 7 - 5 &= 2 \\ 7 - 6 &= 1 \\ 7 - 7 &= 0 \end{aligned}$$

$$7 - \square = \square$$

$$7 - 0 = 7$$

$$7 - 1 = 6$$

$$7 - 2 = 5$$

$$7 - 3 = 4$$

$$7 - 4 = 3$$

$$7 - 5 = 2$$

$$7 - 6 = 1$$

$$7 - 7 = 0$$

Challenge: Why can you not use the numbers 8 and 9?

You cannot use 8 and 9 because 7 is the whole and 8 and 9 are bigger.
