– Patterns 1 – ABAB Patterns – The Kids' Picture Show.

Today you will need to complete the repeating pattern shape worksheet or you can make a repeating pattern using any 2d shapes you have in your home.

Challenge: See if you can make a repeating pattern using everyday 3d shapes (remember some of the everyday 3d shapes that you found in your home last week). See below for some ideas:

You can either complete an AB pattern e.g. cube, cylinder, cube, cylinder or a AAB pattern as above e.g. cube, cube, cylinder, cube, cube, cylinder.

I look forward to seeing your patterns.
