

Maths: Comparing number sentences

Activity 1: use the phrases to compare the number sentences shown in the tens frames. Greater than, less than or equal to.

 $9 + 6$	<div style="border: 1px solid black; width: 100px; height: 80px; margin: 0 auto;"></div>	 $17 - 3$
 $12 + 7$	<div style="border: 1px solid black; width: 100px; height: 80px; margin: 0 auto;"></div>	 $20 - 1$
 $14 - 5$	<div style="border: 1px solid black; width: 100px; height: 80px; margin: 0 auto;"></div>	 $8 + 4$

Activity 2: Use the symbols to compare the number sentences. Remember to work out the answers first then compare the answers.

Bigger side = bigger number.

$12 - 3$	$\bigcirc$	$17 - 9$
$18 - 2$	$\bigcirc$	$14 - 3$
$11 - 3$	$\bigcirc$	$16 - 8$
$15 - 6$	$\bigcirc$	$18 - 9$
$9 + 6$	$\bigcirc$	$11 - 8$
$15 - 5$	$\bigcirc$	$16 - 7$

Challenge: What is the missing comparing sign? Make a comparing sentence for the missing sign.

Activity 3: Use the number cards to make these comparing sentences correct.

$13 - 5 < 13 - \underline{\quad}$

$16 - 4 = \underline{\quad} + 4$

$9 + \underline{\quad} > 9 + 1$

Activity 4: Use the stem sentence to help you explain your answer to this problem.

Alex

Any number less than 11 would make this correct.

$7 + 11 < 7 + \underline{\quad}$

Do you agree with Alex?

Explain why.

I agree/disagree with Alex.

I \_\_\_\_\_ with Alex because

Maths: Comparing number sentences

Answers:

Maths: Comparing number sentences

Activity 1: use the phrases to compare the number sentences shown in the tens frames. Greater than, less than or equal to.

 $9 + 6 = 15$	<b>Greater than</b>	 $17 - 3 = 14$
 $12 + 7 = 19$	<b>Equal to</b>	 $20 - 1 = 19$
 $14 - 5 = 9$	<b>Less than</b>	 $8 + 4 = 12$

Activity 2: Use the symbols to compare the number sentences. Remember to work out the answers first then compare the answers.

Bigger side = bigger number.

12	-	3	>	17	-	9
9				8		
18	-	2	>	14	-	3
16				12		
11	-	3	=	16	-	8
8				8		
15	-	6	=	18	-	9
9				9		
9	+	6	>	11	-	8
15				3		
15	-	5	>	16	-	7
10				9		

Challenge: What is the missing comparing sign? Make a comparing sentence for the missing sign.  
The missing sign is less than <  
Example sentence:  $10 + 1 < 11 + 2$

Maths: Comparing number sentences

Activity 3: Use the number cards to make these comparing sentences correct.

$$13 - 5 < 13 - \underline{2}$$

$$16 - 4 = \underline{8} + 4$$

$$9 + \underline{4} > 9 + 1$$

Activity 4: Use the stem sentence to help you explain your answer to this problem.

Alex

Any number less than 11  
would make this correct.

$$7 + 11 < 7 + \underline{\quad}$$

Do you agree with Alex?

Explain why.

I ~~agree~~/disagree with Alex.

I disagree with Alex because

she needs a number greater

than 11 otherwise it would

make it less than 7+11.
