

WALT: To use language to describe capacity.

Wednesday 15th July

Warm up, Watch: <https://www.youtube.com/watch?v=HL3O2I2IFGs> – Capacity Year 1 Teaching Strategies

Today we are going to learn about capacity. Find a range of containers that can hold water. Next can you begin by making your container **full**, **half full** and **empty**? Then can you make it **nearly full** and **nearly empty**? Can you find a container that holds **more** than the one you are using? Can you find a container that holds **less** than the one you are using? Using all of your containers can you **order** them from which one holds the most to which one holds the least amount of water? You can do this by pouring from one container to another or by filling a small cup and counting how many cups each container holds.

Finish by watching: <https://www.youtube.com/watch?v=V5S0vKz3Qvc> - There's a Hole in My Bucket- Topp Twins
