

## Year 5 Art Project 4 Instructions

Look on the slides explaining about montage. Today, you will be creating your own montage.

Once you have been through the slides, you may either use the multiple images provided on the picture cards or draw your own, onto card to create a template and then design your own montage. Use colour (pencils/pens/paint) to enhance your design, like the examples on the slides.

As an extra challenge, you could use digital images taken by you and printed, or even use software to replicate the same image to create a digital montage. Get creative!
